

18.06 Problem Set 2

Due Thursday, 18 February 2010 at 4pm in the undergrad math office. Please note that the problems from the textbook are out of the 4th edition: make sure to check that you are doing the correct problems. For MATLAB problems, please include a printout of your code with your problem set. You can type `diary("filename")` at the beginning of your session to save a transcript, and `diary off` when you are done.

Non-challenge problems are worth 4 points, while challenge problems are worth 12.

1. Do problems 24 and 40 from section 2.5.
2. Do problems 13, 18, 25, and 26 from section 2.6.
3. Do problems 13, 36, and 40 from section 2.7.
4. Do problems 18, 23, 30, and 32 from section 3.1.
