## 14. SIGHTSEEING

On Sunday, September 16th, we offer you an optional tour to **Martha's Vineyard**:

Named in 1602 by Bartholomew Gosnold in honor of his baby daughter, Martha, and the profusion of wild grapes he found there. There are six towns on Martha's Vineyard, the largest island in New England; three up-Island towns: Aquinnah, Chilmark and West Tisbury and three down-Island towns: Vineyard Haven, Oak Bluffs and Edgartown (which includes Chappaquiddick). The terms up-Island and down-Island are nautical references to degrees of longitude designated on a maps and charts.

**Edgartown** was the Island's first colonial settlement and has been the county seat since 1642. The town is renowned for its stately, white Greek Revival and Federal houses built by whaling captains. The distinctive, museum-piece architecture preserves the ambience of the 19th century seaport to the present day.

The town of **Tisbury**, also known as **Vineyard Haven**, was one of New England's busiest ports in the 1800s. At that time, the area around the harbor was known as Holmes Hole and was a convenient anchorage for ships traveling between the East Coast of the United States and Europe. In those days, most of the coastwise shipping traveled through Vineyard Sound. In 1845 13,814 vessels were counted.

**Oak Bluffs**, formerly known as Cottage City from the many gingerbread cottages which are still found there, is also home to the Flying Horses Carousel, the oldest operating merry-go-round in the United States. The horses were hand-carved in New York City in 1876. This Historic Landmark is maintained by the Martha's Vineyard Preservation Trust that manages this and several other historic sites on the Island.

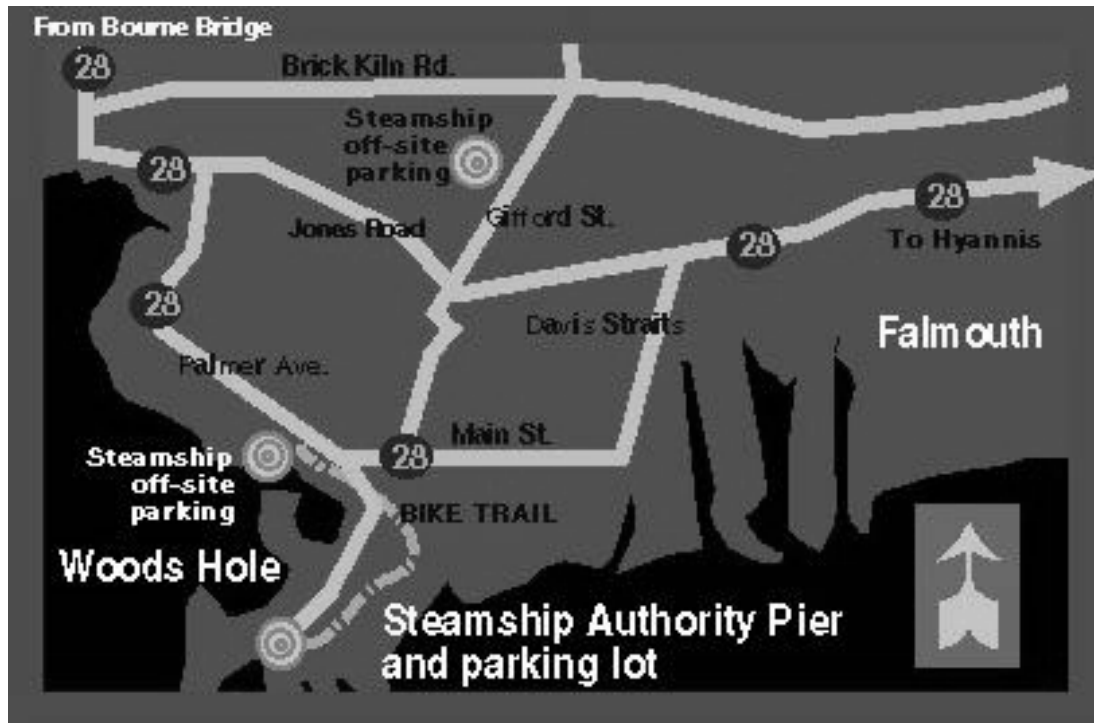

**Chilmark** is known for its rolling hills and unmatched coastline. Before the days when the Coastguard looked out for shipwrecked vessels, Vineyarders took it upon themselves to form volunteer groups that provided assistance to sailors in times of need. The open dories, one of which was provided by the Massachusetts Humane Society, were launched into stormy seas from Squibnocket Landing, the only beach on the south shore shallow enough for boats to be landed or launched in heavy weather.

## 15. ABOUT CHATHAM

Chatham, one of the oldest townships on Cape Cod, was settled in 1656 by a handful of Pilgrims. Their surnames still dominate the town's census list which now lists approximately 6,500 residents. The town was incorporated in 1712. Originally a farming community, its inhabitants found deep sea fishing to be a more successful occupation, and today small boat deep sea fishing and shellfishing continue as important maritime industries. Covering an area of approximately seventeen square miles, it is a happy combination of past and present. Chatham is old-fashioned and picturesque, yet it offers the best in modern facilities.

The flashing beacon of Chatham Light sends its beams out over the cliffs into the mist of fog that frequently bathes this lovely seaside town right at the tip of the Cape's elbow. Chatham's Main Street is an exclusive mile of fancy specialty shops festooned with colorful flower boxes, historical buildings, great restaurants specializing in ultrafresh seafood, art galleries and elegant inns. Waterfront properties range from tiny rose-covered cottages to the pricey 20-room mansions with hydrangea-lined circular driveways.

Chatham has carefully preserved the flavor of a small New England town with great style. But Nature is an intimate companion of daily life here—because of its unique location, Chatham is particularly vulnerable to the wild and woolly Nor’easters and tropical storms that pound the Cape regularly, and its shoreline changes dramatically every year. Take a look at the Chatham Break, and you will be awed by what Nature can do when she’s having a bad day.

Chatham is a perfect town to just wander around. Be sure to visit the Monomoy Wildlife Refuge Headquarters on Morriws Island for stunning views of Monomoy and the town. And drive down to Stage Harbor for the Fish Pier—bring your camera! And spend some time at the old Atwood House Museum Complex for a marvelous look at the Cape Cod of yesteryear.
