

Bruker / MIT Symposium 2025

NEW AND EXCITING AT BRUKER

Michael Ruf, Bruker AXS.; e-mail: michael.ruf@bruker.com

Bruker continues to redefine the boundaries of X-ray source and detector technologies. With ongoing enhancements to the I μ S Microfocus sources and PHOTON CPAD detectors, we set new standards in crystallography. Equally impressive is our software innovation, exemplified by the intuitive yet powerful APEX6. This presentation will showcase Bruker's latest achievements since the last MIT Bruker meeting.
